EDGE PROFILE: Square Edge

MATERIAL: 3DL/Thermofoil

DRAWER: Slab

shown in Mayflower White

Our Lexington door offers a contemporary take on the popular Shaker style with a sleek, micro shaker profile. Its narrow frame and flat center panel creates a streamlined look that complements both transitional and modern interiors. Crafted from durable 3DL/thermofoil material, it provides a low-maintenance finish that resists moisture and everyday wear — ideal for high-traffic spaces. Available in four standard finishes or a range of project-specific colors.

STANDARD FINISHES

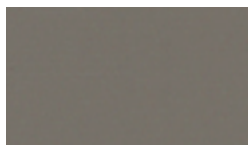

Available for projects of any size. For orders of 50+ units, select project colors may be available. Please contact your sales representative for more information.
